CAREER OBJECTIVE

I'm a dedicated QA Engineer with expertise in both Manual Testing and Automation using Selenium and Python. Passionate about delivering high-quality, reliable software, I excel at identifying bugs, ensuring performance, and crafting efficient test cases. I thrive in dynamic environments, leveraging analytical skills and problem-solving to drive seamless user experiences. Eager to learn, grow, and contribute to team success while continuously enhancing my expertise in development and quality assurance.

EXPERIENCE

Agile dot LLC : **Associate SQA Engineer**
November 2024 – July 2025
Responsibilities:

- Design and execute manual and automated test cases for web and mobile applications
- Collaborate with developers and product teams to identify bugs and improve software quality
- Perform regression, functional, and performance testing
- Maintain and update test documentation, test plans, and reports
- Utilize tools such as Selenium, Postman, and JIRA for test automation and issue tracking.
